TANK TAKE OVER (TTO) TRANSACTION @ QINGDAO PORT, CHINA.

1. The buyer issues a Purchase Order (PO), accompanied by the buyer's company registration certificate, POF, a copy of the signatory's identification.
2. The seller issues a Sales and Purchase Agreement (SPA), and the buyer signs and return it after internal review.
3. Prior to the Q&Q test, the buyer conducts a Technical & Trade Meeting (TTM) in Qingdao with the seller's team. Seller provide the full product documents as below for Buyer's verification.
    a. Product Certificate of Origin (CO)
    b. Authorization To Sell And Collect (ATSC)
    c. Product Passport
    d. Authorization to test Product
    e. Injection Report
    f. NCNDA/IMFPA signed by all intermediaries involved in the transaction
    g. SGS Report issued within 48 hours
    h. Tank Storage Receipt with GPS coordinate and Hub NO. & Terminal access No. (TSR)
    i. Authorization to verify physically (ATV)
4. Buyer goes to the product storage terminal in Qingdao to conduct an inspection and perform a Q&Q test on seller's tank. The costs associated with this process are borne by the seller. including the issuance of a Utility Delivery and Transfer Authorization (UDTA) and an Authorization to Lift (ATL).
5. Upon successful SGS Q&Q or similar report, buyer pays via MT103 T/T wire transfer total product value to the seller's designated bank account. Seller transfers the product title to buyer and release the Authorization to Sell (ATS), title transfer documents, and all export-related documentation to the buyer.
6. With fresh cut Q & Q SGS report, the seller's tank storage company issues the buyer the Notice of Readiness (NOR) to inject the product. Buyer shall take over and extend the seller's tank.
7. Upon successful completion of the trial order, the buyer and seller negotiate and enter into a long-term contract.
