BINDING TERM SHEET

Partnership, Equity Structure & Governance

TradeDar HoldCo — NewCo Formation

Date	March 2026
Status	BINDING
Parties	Group A: KEVO INVESTMENTS LIMITED, a company incorporated in England and Wales (company number 13476330) whose registered office is at Elizabeth House, Victoria Street, Openshaw, Manchester, England, M11 2NX & Group B: TWO23 Group L.L.C-FZ (Formation No. 2537937, Meydan Free Zone)
Entity	TradeDar HoldCo (to be incorporated in the ADGM)
Governing Law	Laws of ADGM
Dispute Resolution	ADGM Arbitration Centre.

Preamble

The parties acknowledge that the success of TradeDar depends on the full and committed contribution of all parties. Neither group can build this project alone.

Group A brings the technology platform, engineering resources, and access to regulatory licenses — the infrastructure foundation built over years of development. Group B brings the product concept and blueprint, executive leadership, team build-out, and the capital raise that funds the venture. Only together do the parties have a defensible moat and a viable path to building TradeDar into a market-leading platform.

This term sheet is binding upon execution by both parties and sets forth the agreed terms governing the formation, equity structure, governance, and mutual obligations of each group.

1. Parties & Contributions

1.1 Group A

- Existing technology infrastructure (trading engine, exchange and execution infrastructure, KYC/AML systems). Group A represents and warrants that the technology is operational and materially as described.
- Full development team and engineering resources, dedicated to building TradeDar to the product specification designed by David Gevorkian, remunerated from raised capital.
- Access to all available regulatory licenses on the terms set out in Section 4.
- Documentation, knowledge, advisory and legal support for creating new independent licenses in any jurisdiction.

1.2 Group B — Led by David Gevorkian

- Product concept, strategic blueprint, business plan, financial architecture, and go-to-market strategy — all designed by David Gevorkian.
- Executive leadership team under the management of David Gevorkian, and full operational team build-out.
- Capital raise of up to US$10,000,000. Fundraising is led by Ahmed and Nepo on behalf of Group B.
- Access to a creative agency holding IP distribution rights, which will provide exclusive placement services to TradeDar at below-market rates.
- Investor relations, business development, and institutional partnerships.

1.3 Representations on Contributions

Each group represents and warrants that: (a) it has full authority to commit the contributions described above; (b) the contributions are free from any encumbrance, lien, or third-party claim that would prevent or materially impair their delivery; and (c) it will deliver its contributions in accordance with the timelines agreed by the Board.

1.4 Group Holding Structures

Group A intends to incorporate a holding company ("Group A HoldCo") to hold its shares in TradeDar HoldCo prior to execution of the Shareholders' Agreement. Upon incorporation, Group A shall be entitled to transfer all of its rights, interests, and obligations under this term sheet to Group A HoldCo without requiring Group B's consent. All references to "Group A" in this term sheet and any Definitive Agreement shall, following transfer, be read as references to Group A HoldCo.

Group B intends to incorporate a holding company ("Group B HoldCo") to hold its shares in TradeDar HoldCo prior to execution of the Shareholders' Agreement. Upon incorporation, Group B shall be entitled to transfer all of its rights, interests, and obligations under this term sheet to Group B HoldCo without requiring Group A's consent. All references to "Group B" in this term sheet and any Definitive Agreement shall, following transfer, be read as references to Group B HoldCo.

2. Equity Structure

2.1 Formation Split — Co-Founder Shares

At formation, the equity of TradeDar HoldCo shall consist of three classes of issued shares:

Holder	Formation Shares
Group A	80%
Group B (David Gevorkian)	10%
Conditional Reward Pool (escrow)	10%
Total	100%

David Gevorkian’s 10% Co-Founder Shares represent the leadership allocation for Group B — compensation for the product concept, strategic vision, and executive leadership of the Company.

The Conditional Reward Pool is issued at formation as a distinct class held by an escrow agent appointed by mutual agreement of Group A and Group B. It is not an option, warrant, or future promise. It forms part of the issued share capital from day one and dilutes pro-rata alongside all other share classes on every financing round.

All shareholders dilute equally on every funding round. No protection, no special treatment. The CEO Performance Ratchet is governed by Section 2.6 below.

2.2 Conditional Reward Shares

Conditional Reward Pool: At formation, 10% of the issued share capital of TradeDar HoldCo is allocated as a Conditional Reward Pool, held in escrow alongside Group A (80%) and Group B (10%). The Conditional Reward Pool is not carved from either group's allocation; it is a standalone formation-level issuance and is, in all aspects aside from its vesting, the same as the formation-level issued shares.

The Conditional Reward Shares form part of the issued share capital from the date of formation and dilute pro-rata alongside all other share categories on every financing round, including the initial up to US$10M raise. When investors are allocated shares, all three categories — Group A, Group B, and the Conditional Reward Pool — dilute equally on a percentage basis.

The US$10 million initial raise: The initial raise of up to US$10M is to be carried out by Group B.

Release: The Conditional Reward Shares shall be released from escrow and vest fully to Group B Holding upon cleared funds being deposited in the TradeDar HoldCo account. The pool releases to Group B to the fraction that the amount actually clears bears to $10 million.

Forfeiture: Any unreleased shares forfeit and return to Group A. All unreleased shares forfeit automatically on the Long-Stop Date: 10 months from incorporation of TradeDar HoldCo.

Prior to release, no voting rights, economic rights, or shareholder privileges attach to the Conditional Reward Shares. The Escrow Agent shall act solely on joint written instruction of Group A and Group B confirming that the release or forfeiture condition has been met.

2.3 Group B Holding

All Group B allocated shares (David Gevorkian's 10% and the Conditional Reward Shares on release) are managed through TWO23 Group L.L.C-FZ, a limited liability company formed under the Meydan Free Zone regulations (Formation No. 2537937, formed 27 September 2025) ("Group B Holding"). David Gevorkian is the Managing Director of Group B Holding. Internal distribution within Group B Holding is a matter for Group B's own governance and is not governed by this term sheet. Any internal arrangement to protect David Gevorkian's economic position creates no obligation on Group A and shall not affect Group A's pro-rata position on any round.

2.4 After the Initial Raise

- Group B shall continue to lead future fundraising rounds as shareholders acting in the interest of the Company, not for additional equity.
- All future investment rounds and ESOP / Phantom Share grants dilute all shareholders pro-rata. No exceptions.

2.5 ESOP / Phantom Shares

Pool: 10% of issued share capital, carved pro-rata from all shareholders.

Structure: ESOP / Phantom Shares. Standard 4-year vesting with 1-year cliff. Administered by the Board with CEO recommendation authority.

2.6 CEO Performance Ratchet

David Gevorkian shall be entitled to additional equity in TradeDar HoldCo, earned personally as CEO and held outside Group B Holding ("CEO Merit Shares"), upon the achievement of the performance milestones set out below. The CEO Performance Ratchet is separate from and independent of David Gevorkian's co-founder shares held through Group B Holding.

Milestones: The following milestones each trigger the issuance of new shares to David Gevorkian personally:

Milestone	Trigger	Equity*	Cumulative
Series A	Closed at ≥US$250M pre-money valuation	+1.5%	1.5%
Revenue I	US$50M annualised recurring revenue achieved	+1.5%	3.0%
Unicorn	US$1B valuation (priced round or independent valuation)	+2.0%	5.0%
Revenue II	US$250M annualised recurring revenue achieved	+2.0%	7.0%
Scale	US$5B valuation (priced round or independent valuation)	+2.0%	9.0%

*new shares representing [X]% of the then total issued share capital on the post-settlement cap table immediately following the relevant event.

Mechanic: Each milestone triggers the issuance of new shares to David Gevorkian personally, diluting all shareholders on the then-settled cap table pro-rata — including Group A, Group B Holding (including David Gevorkian's own co-founder shares), all investors, and the ESOP / Phantom Share pool. No shareholder or class of shares is excluded from ratchet dilution.

Sequencing: Where a milestone coincides with a financing round or other dilutive event, the cap table shall first settle on the financing round (all dilution from the round applied), and the ratchet shares shall then be issued on the post-settlement cap table.

No Reverse Vesting: Once a milestone has been achieved and the corresponding shares issued, such shares are fully vested and irrevocable. There is no clawback, reverse vesting, or forfeiture mechanism of any kind attaching to CEO Merit Shares, regardless of subsequent events including termination, removal, resignation, or change of control.

Self-Executing: The issuance of CEO Merit Shares upon verified milestone achievement is pre-approved under this term sheet and shall not require further shareholder approval, Board resolution, or reserved-matter consent under Section 3.5. Milestones shall be deemed achieved upon:

(i) for valuation milestones: the closing of the relevant priced round or delivery of an independent valuation by a qualified valuer; and

(ii) for revenue milestones: certification by the Company's auditors that the relevant annualised recurring revenue threshold has been achieved on a trailing twelve-month basis.

Departure: If David Gevorkian ceases to serve as CEO for any reason (voluntary or involuntary), any milestone not yet achieved at the date of departure shall lapse. All CEO Merit Shares already issued prior to departure shall remain fully vested and are not subject to forfeiture.

3. Governance

3.1 Sole Executive Authority

Both parties have agreed that David Gevorkian shall be the sole leader of TradeDar. This is a foundational condition of the partnership, set by Group A and agreed by all parties.

- David Gevorkian is CEO with sole authority over all operational, strategic, and creative decisions.
- Full creative control over the product, brand, and go-to-market.
- Sole authority to hire, appoint, and terminate all executives and key team members.

- No shareholder or Board member may override the CEO's operational decisions without the CEO's written consent.

Save that all authority exercised above is exercised in the best interests of the company and in accordance with all regulatory, legal and compliance obligations.

3.2 CEO Entrenchment

The removal of David Gevorkian as CEO shall require the unanimous consent of all shareholders save for David Gevorkian.

If David Gevorkian is removed as CEO without cause:

- David Gevorkian retains all Co-Founder Shares, all CEO Merit Shares, and remains a shareholder and co-founder of the Company.
- "Without Cause" means removal for any reason other than: (a) fraud; (b) criminal conviction for an offence involving dishonesty or moral turpitude; (c) wilful and material breach of fiduciary duty as determined by a court or arbitral tribunal of competent jurisdiction; or (d) a finding of gross misconduct by a regulatory authority with jurisdiction over the Company (e) gross negligence in the performance of duties.
- For the avoidance of doubt, strategic disagreement shall not constitute Cause.

3.3 Financial Authority

The board shall set the full operating budget immediately after the close of each funding round and thereafter at intervals of not more than six months.

Each budget shall include a contingency fund equivalent to no more than 10% of the total operating budget. The purpose of this contingency is to provide the CEO discretionary operating capital, and the CEO shall have authority to use this fund to meet unforeseen expenditure in the interests of TradeDar.

Additional expenditure in excess of the budget (including the CEO contingency) shall be made in conjunction with Group A.

No other shareholder, director, or team member may commit, approve, or authorise any expenditure or financial obligation on behalf of the Company without the CEO's prior written approval.

The CEO, where acting in conjunction with the CLO (here representing the interests of Group A), has authority to commit TradeDar to financial arrangements prior to the first capital raise of up to USD$10M. Those financial arrangements must be explicit that no payment will be made until after the company has been capitalised by a raise according to the CEO determined investment timeline. No agreement should create any financial obligation on TradeDar or any shareholder of TradeDar in the event that this capital is not raised.

3.4 Board of Directors

On formation the Board of Directors shall consist of 4 members: two appointed by Group A and two appointed by Group B. In the event of deadlock on any matter, save reserved matters, the CEO shall have the casting vote. Investor Board seat rights, if any, shall be negotiated per round.

It is agreed, in accordance with general practice, that at each annual or bi annual shareholders meeting or any EGM convened for that reason, the shareholders shall vote on a resolution granting discharge of liability.

3.5 Reserved Matters

The following matters require the approval of both Group A and Group B. In the event of deadlock, the matter shall be referred to arbitration in accordance with section 10.2.

- Issuance of new shares or changes to share capital (other than pre-approved issuances under Sections 2.5 and 2.6).

- Sale, merger, or dissolution of the Company, or any transaction resulting in a change of control.
- Amendments to the constitutional documents of the Company.
- Related-party transactions over $50,000

3.6 Change of Control

No shareholder may sell, transfer, assign, or otherwise dispose of their shares without prior approval of shareholders holding at least 91% of the total issued share capital (excluding any shares held in escrow and not yet released). This applies to all share classes. Partial transfers are subject to the same threshold.

---

4. Licenses

4.1 Nature of Access — Principal-AR Framework

Group A shall grant TradeDar access, to the maximum extent approved by the regulator(s) and license holders of record, to the regulatory licenses at 4.2 through a formal Principal and Appointed Representative Agreement (or jurisdictional equivalent — the "License Access Agreement"), to be executed concurrently with or promptly following this term sheet.

TradeDar shall operate as an Appointed Representative or in such other permitted capacity, at the absolute discretion of the Regulator and the license holder of record and to the extent the applicable regulatory framework allows. The License Access Agreement governs the operational terms; in the event of conflict it prevails on all regulatory and compliance matters.

Access under this section is a contractual right, not an irrevocable property interest. Group A and the license holders of record retain oversight authority and the right of suspension and termination on the following grounds:

(i) regulatory direction or requirement;

(ii) written legal advice from external counsel that continued access creates material liability for Group A or the license holders of record;

(iii) written advice from any Compliance Officer of the license holder(s) of record that access or continued access creates material liability for Group A or the license holders of record;

(iv) written advice from the CLO of TradeDar that access or continued access creates material liability for Group A or the license holders of record

(v) material and unremedied compliance breach by TradeDar following not less than 30 days 'written notice and opportunity to cure; or

(vi) TradeDar's conduct has caused or is imminently likely to cause jeopardy to Group A's license.

Suspension or revocation on any ground other than (i)–(vi) above shall constitute a material breach by Group A.

Where suspension is not immediately required by regulation or legal necessity, Group A shall give not less than 90 days 'written notice, during which the parties shall use best endeavours to establish an alternative regulatory pathway. TradeDar shall submit to Group A's reasonable ongoing due diligence and compliance oversight as required by applicable regulation. Group A shall not exercise its compliance authority for commercial reasons unrelated to genuine regulatory concern.

4.2 License Schedule

#	License	Jurisdiction	Details
1	ADGM License	Abu Dhabi (ADGM)	Category 3A
2	UK License	United Kingdom	FCA — Dealing as Principal

4.3 Call Option

TradeDar has a call option to acquire any or all licenses from Group A. The purchase price shall be the greater of: (a) 10× EBIT attributable to the relevant license (measured over the 12 months immediately preceding exercise); or (b) a fair price reflecting the time, effort, expense, and premium of obtaining the license, as agreed by the parties acting reasonably. Payment in cash. Where EBIT spans multiple jurisdictions or business lines, the allocation methodology shall be agreed at exercise, acting reasonably; failing agreement within 30 days, determined by an independent chartered accountant appointed by mutual consent.

The decision to exercise any call option in any jurisdiction shall be one made jointly between the CEO and CLO of TradeDar.

If TradeDar elects not to exercise the call option in any jurisdiction, it retains the right to create its own independent license in that jurisdiction with Group A's advisory support. Acquisition of an independent license by TradeDar in any jurisdiction automatically terminates Group A's obligations and TradeDar's access rights in that jurisdiction only.

4.4 License Extension, Acquisition and Creation Support

If, following meeting(s) or correspondence with the relevant Regulator and the Compliance Officer of the relevant license holder of record, the CEO and CLO of TradeDar jointly determine that any extension or additional permission to any existing license is both permitted by the Regulator and the most economical and expeditious route to market for TradeDar in any particular jurisdiction, Group A commits to providing all possible assistance – including requesting the assistance of the license holder of record – in obtaining such permissions and extensions.

If, following meeting(s) or correspondence with the relevant Regulator(s), the CEO and CLO of TradeDar jointly determine that the most economical and expeditious route to market for TradeDar in any particular jurisdiction is to acquire a licence, category of license or permission by acquiring an already regulated entity, then the CEO and CLO, acting together, shall have the power to authorise such an acquisition on behalf of TradeDar.

Group A shall provide full documentation and advisory support to assist TradeDar in creating its own independent licenses in any jurisdiction, at no additional cost to TradeDar.

5. Dilution

5.1 Universal Pro-Rata Dilution

All shareholders dilute pro-rata on every financing round without exception. This principle applies from formation and governs all rounds, including the initial raise of up to US$10M. The three formation categories — Group A (80%), Group B (10%), and the Conditional Reward Pool (10%) — each bear dilution equally on a percentage basis on every occasion new shares are issued. No shareholder, class of shares, or individual is protected from dilution at the inter-party level. No exceptions, no protected rounds, no deferred dilution of any kind.

5.2 Initial US$10M Raise

On the initial raise up to US$10M , all three formation categories dilute pro-rata simultaneously. Investor shares are not sourced from any single class. The Conditional Reward Pool, held in escrow pursuant to Section 2.2, forms part of the issued share capital and dilutes alongside Group A and Group B in the same round.

5.3 Future Rounds

All future financing rounds dilute all shareholders pro-rata without exception. Group B shall continue to lead future fundraising rounds as shareholders acting in the interests of the Company, not for additional equity.

5.4 ESOP / Phantom Shares

The ESOP / Phantom Share pool dilutes all shareholders pro-rata, including Group A, Group B, and the Conditional Reward Pool prior to its release. Following release of the Conditional Reward Pool to Group B Holding, the aggregate Group B Holding position dilutes pro-rata on all subsequent ESOP grants alongside all other shareholders. No exceptions.

5.5 Internal Group B Arrangements

Nothing in this section prevents Group B from making internal arrangements within Group B Holding to manage the economic effect of dilution between its own members. Any such arrangement is entirely a matter of Group B's own governance, creates no obligation on Group A, and shall not affect Group A's pro-rata position on any round.

---

6. Vesting

Share Class	Vesting
Co-Founder Shares (Group A)	Fully vested upon: delivery of technology and development team access; execution of the License Access Agreement.
Co-Founder Shares (David G.)	Fully vested at formation. No vesting schedule, cliff, or conditions.
Conditional Reward Shares	Fully vested upon release from escrow — earned through the initial raise of up to $10 million dollars and fully vested on receipt of cleared funds up to that amount with a pro-rata reduction for less.
CEO Performance Ratchet (David G.)	Fully vested and irrevocable upon verified milestone achievement. No reverse vesting, no clawback. See Section 2.6.
ESOP / Phantom Shares	4-year vesting, 1-year cliff.

Good leaver / bad leaver provisions shall be introduced as part of institutional investor negotiations at the appropriate financing round.

---

7. Pre-Money Valuation

Pre-money valuation: US$70,000,000 (seventy million United States Dollars), as pre-agreed by all shareholders.

The pre-money valuation is subject to adjustment in the context of initial investor negotiations. Discounts may be applied to the headline valuation as part of commercial discussions with prospective investors, provided that any such discount is agreed in writing by both Group A and Group B prior to closing. For the avoidance of doubt, any adjustment to the pre-money valuation shall dilute all formation categories pro-rata in accordance with Section 5.

---

8. Intellectual Property

All IP developed specifically for TradeDar shall be assigned to TradeDar HoldCo from the date of its creation. Each party shall execute all documents and do all things reasonably necessary to effect such assignment.

Pre-Existing IP: "Pre-Existing IP" means the technology infrastructure described in 1.1 (being the trading engine, exchange and execution infrastructure, KYC/AML systems). Pre-Existing IP shall be licensed to TradeDar HoldCo on a royalty-free, non-exclusive basis for use in connection with the TradeDar platform. The license shall commence on the date of formation and shall remain in force for so long as the Shareholders Agreement between Group A and Group B remains in effect. The licence shall be irrevocable during that period save in the event of a material and

unremedied breach by TradeDar of its obligations under this term sheet or the Shareholders' Agreement, following not less than 30 days' written notice and opportunity to cure.

Group A retains the right to use Pre-Existing IP in its own operations in such a way and to such an extent that complies with §9. In the event that, at the time of any approved exit under §3.5 or §3.6, the Pre-Existing IP is still used by Group A in its operations, this right shall survive any Approved Exit under §3.5 or §3.6 and shall continue as a perpetual, royalty-free, non-exclusive licence from TradeDar HoldCo or any acquirer to Group A on the same terms notwithstanding the mandatory transfer of Pre-Existing IP on such exit.

Exit: in the event of an approved exit under §3.5 or §3.6 Group A shall transfer full legal and beneficial ownership of such of the Pre-Existing IP as is required for the operation of TradeDar to TradeDar HoldCo with effect from and simultaneously with completion of the Approved Exit, at no additional cost or consideration beyond Group A's participating interest in the proceeds of the Approved Exit as a shareholder of TradeDar HoldCo.

Such transfer shall be unconditional and free from any encumbrance, lien, or third-party claim, and shall be effected by execution of such assignment documents, deeds, and ancillary instruments as TradeDar or the acquirer may reasonably require.

---

9. Exclusivity & Non-Compete

Exclusivity: Neither group shall engage in competing financial services platforms in the same target markets without prior written consent of the other party. For the avoidance of doubt, this obligation does not apply to Group A’s pre-existing business operations, technology infrastructure, or regulated activities carried on prior to the date of this term sheet, provided that Group A does not actively solicit TradeDar’s clients or use TradeDar’s confidential information in the conduct of those operations.

Non-Compete: 24 months post-departure for all shareholders and key team members.

Confidentiality: All parties shall maintain confidentiality regarding the terms of this agreement and all proprietary business information.

---

10. General Provisions

10.1 Definitive Agreements

TradeDar’s CLO shall, in good faith, draft the following Definitive Agreements within 60 days of execution of this term sheet, using best endeavours to give effect to the terms herein. These agreements shall be negotiated and agreed between the partied acting in good faith:

- Shareholders ’Agreement (reflecting the terms herein);
- Subscription Agreements for the initial raise of up to US$10M;
- License Access Agreement (Section 4); and
- CEO Service Agreement (incorporating Sections 2.6 and 3).

In the event of conflict between this term sheet and any Definitive Agreement, the Definitive Agreement shall prevail to the extent of the inconsistency, provided that the Definitive Agreement does not materially alter the economic terms set out herein without the written consent of both parties.

10.2 Governing Law & Dispute Resolution

This term sheet and any dispute arising out of or in connection with it shall be governed by the laws of the Dubai International Financial Centre (ADGM). Any dispute shall be resolved by binding arbitration administered by the ADGM Arbitration Centre, in accordance with the ADGM Arbitration Rules. The tribunal shall consist of a sole arbitrator. The seat of arbitration shall be the ADGM. The language of the arbitration shall be English.

10.3 Entire Agreement

This term sheet constitutes the entire agreement between the parties with respect to its subject matter and supersedes all prior negotiations, representations, understandings, and agreements (whether written or oral) between the parties relating to the subject matter hereof.

10.4 Amendments

No amendment or variation of this term sheet shall be effective unless made in writing and signed by the authorised representatives of both Group A and Group B.

---

11. Binding Effect

This term sheet is binding upon execution by the authorised representatives of Group A and Group B.

IN WITNESS WHEREOF, the parties have executed this term sheet on the date(s) set forth below.
